

## Main Use Case: Create, Save, and Open Notes

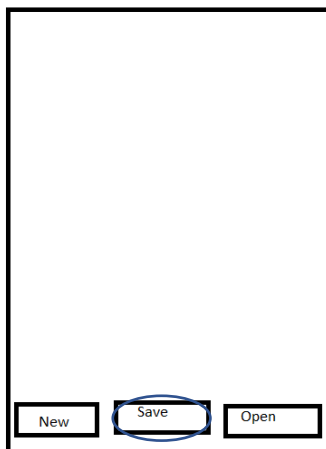

Step 1: Press the “New” button

Step 2: Type your note

Step 3: Press the “Save” button

Step 4: Enter name for new note

A screenshot of a mobile application interface. At the top is a large empty text area. Below it is a dialog box with the label 'Save As:' and the text 'Note 1'. At the bottom of the screen are three buttons: 'New', 'Save', and 'Open'.

Step 5: Press the “Open” button

A screenshot of the same mobile application interface. The 'Open' button at the bottom right is circled in blue, indicating it should be pressed.

Step 6: Type in name of desired note

A screenshot of the mobile application interface. The dialog box now shows the label 'Open:' and the text 'Note 1'. The 'New', 'Save', and 'Open' buttons remain at the bottom.

Step 7: View your desired note
